

## Environmental Policy Statement

**Novum Structures UK Ltd (Novum), which includes Novum Special Projects and Novum Marine operates from offices in Diss, Camberley and Chepstow in the UK. The company business is the design, fabrication, installation and maintenance of structural solutions for specialised glazing and membranes.**

The directors of **Novum** are committed to the management of our environmental obligations across our company and project sites, seeking to:

- Meet the requirements of all environmental legislation applicable to us, together with our industry standards thus meeting our compliance obligations;
- In handling fuels and other hazardous materials associated with our production facilities, take all essential measures to prevent pollution;
- Maintain the continual improvement of environmental performance through the regular review of our management system.

In seeking to maintain and improve the environmental performance of the organisation we will:

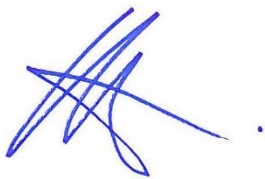

- Demonstrate that we operate in an environmentally sound manner whilst minimising our environmental impact;
- Conserve energy wherever possible, seeking to minimise the use of fossil fuels;
- Maintain waste-saving protocols to ensure the recovery of recyclable material;
- Engage with staff and contractors to ensure that they understand the environmental obligations associated with their roles within the organisation and that they are encouraged to suggest improvements to the EMS;
- Prevent pollution and ensure that staff have the appropriate training and awareness to protect the environment as part of their day to day activities;
- Set environmental objectives that are relevant and reviewed regularly for progress and achievement.

In order to achieve this, we will maintain and continually seek to improve an Environmental Management System that is compliant with the requirements of BS EN ISO 14001:2015.
